FINEST AMERICAN AND EUROPEAN DAHLIAS

1939
CATALOG

BEDFORD DAHLIA GARDENS

133 WEST GLENDALE - - - BEDFORD, OHIO

Greeting for 1939 to our Dahlia Friends

It is our pleasure to offer to you, in this list, some of the finest European and American dahlias. We grow a majority of cactus varieties, because of their beauty and usefulness as a cutflower, and because of their freeflowering habits and long wiry stems. They have excellent keeping qualities, lasting a long time in water, when cut.

Our roots are field grown and only those varieties which proved satisfactory in our garden, are listed. All roots used for propagating, have been selected and marked, in the field, before digging time, assuring you and ourselves the best in plants.

Our plants are grown in our own greenhouse, from base cuttings. Only a reasonable number of cuttings taken from each root, and all plants well hardened off in our modern coldframes and shipped from three inch pots, ready to be set out in the garden.

Priced as low as possible, our cuttings are well rooted and individually wrapped, making it convenient for you to pot them, that they will continue their proper growth without any delay.

We have good success in growing dahlias and perhaps some of our methods will be helpful to you.

Plow or spade the soil not less than 12" deep, and see that you have good drainage.

When planting our dahlias we fertilize with bone meal and muriate of potash, a little of each in every hill, and mixed well into the soil.

Never allow the ground to bake and crack. Cultivate often, quite deep up to about July 15, than more shallow to August 15. A top dressing of 2-8-10 should be applied at this time, not any closer than 6 inches to the stalk. Scatter lightly over the ground.

If possible, mulch your dahlias after cultivation has stopped. Grass cuttings, straw, leaves or peat are all good.

Spray your plants at least once every two weeks. We use Red Arrow and find it very effective for the control of red spider, thrip and leaf-hopper.

Pull up any stunted or diseased plants.

If your plants are in need of water, give the ground a good soaking, as watering just the top of ground, brings the fibrous roots to the surface, where the heat may damage them.

Manure or compost plowed into the ground in the fall is very good for soil lacking humus.

We grow our dahlias naturally, without any forcing, but only grow as many as we are able to give proper care. We always have plenty of blooms which we are proud to exhibit at as many of the shows as we can attend, that you and your friends may see and grow them as we do.

NEW FOREIGN AND AMERICAN DAHLIAS FOR 1939

Root Plant Cutting

ADOLF MAYER , S. C. Deep velvety maroon, with a real black sheen toward the centre. Stem and form of the large blooms perfect	1.00	.60

Varieties marked * are excellent cutflowers, recommended for their blooming and keeping qualities.

To some of you who have never tried our dahlias, we are making a special introductory offer of the following collection:

- 5 — Large exhibition type dahlias
- 5 — Fine cactus dahlias
- 2 — Excellent small type dahlias 3½" to 5".

No two alike, and all properly labeled, the twelve, in good healthy roots for \$6.00 or in plants ready to set out in your garden, for \$3.00 postpaid.

With every \$6.00 retail order (collection not excepted) we will include a plant, your choice, of either Red Salute, Sleepy Hollow or Monarch of the East.

The following are unsolicited letters which we were proud to receive last year.

Bedford Dahlia Gardens,
Bedford, Ohio.

Dear Sir:—

"I wish to congratulate you on the fine cuttings you sent me. They were rooted fine, packed in excellent shape and best of all every one is in my garden growing fine. I did not have as good success with some I received from other growers and I am ordering a few more of you."

Very respectfully,

Dr. A. M. Blake,
Waunakee, Wis.

Bedford Dahlia Gardens,
Bedford, Ohio.

Dear Sir:—

"Received the plants yesterday in fine shape. Thank you very much. They are some of the finest I have ever received. You will hear from me again next year."

Very respectfully,

Reinhard B. Riebert,
Port Huron, Mich.

Quantity Discount—Twelve of one variety for the price of ten. Three at the dozen rate, on plants and cutting only.

Roots will be sent after April 15th, by parcel post, unless otherwise requested.

Terms—Cash with order. Orders to the amount of \$3.00 or over shipped prepaid. On plant and cutting order add 25c for special delivery. No cutting order received for less than \$3.00.

On retail orders in Ohio, 3% should be added for Sales Tax.

We guarantee all stock sent out in first class growing condition, true to name, and healthy, and if given proper care after receiving and planting, they should prove satisfactory.

Prices on rooted cuttings are strictly net.

Our dahlias are State and Federal inspected.

Reference, Cleveland Trust Bank of Bedford.
